

BFM® for special applications

NEW

Tool Release – „Smiley“

For use in proximity of dangerous machinery / parts; protection against unauthorized access.

BFM® connector with a stronger snap ring which under normal conditions cannot be opened manually but only with the special „Smiley“ tool (available separately).

Available for diameters up to Ø 650 mm.

Please observe separate fitting guideline!

You will need:

- BFM® TR connector (= with enforced snap ring)

- BFM® TR spigot (= with punched „Smiley“ opening)

- BFM® TR „Smiley“ tool

For any work safety concerns, please also consider using our protective „Walter Safe“ and / or our various sensor solutions for electronic monitoring – please contact us for details.

This document does not imply any legally binding assurance concerning specific properties of the BFM® fittings or the suitability for a particular application. The responsibility of complying with any governing laws and regulations relevant to the use of BFM® fittings is the obligation of the user. Subject to technical changes without prior notice.
